

Industry-leading Product-Reliability Testing Equipments

Sweep-frequency Vibration Testing Equipment

Mechanical Shock Testing Equipment

Moisture-Proof Testing Equipment

Temperature Cycling Testing Equipment

Salt Spray Test Equipment

Constant Acceleration Test Equipment

The equipments listed out are only a portion of in-house equipments, these advanced top-brand equipments are capable of handling all reliability requirements per China Military Standard 923A, 548A (Military Standard 883, Military Standard 38354, etc.)
